

Huntington School.

Huntington school is located in school district No. 5 in Jack's township about two miles from Enoree river. It has 16 acres of land—about half in cultivation.

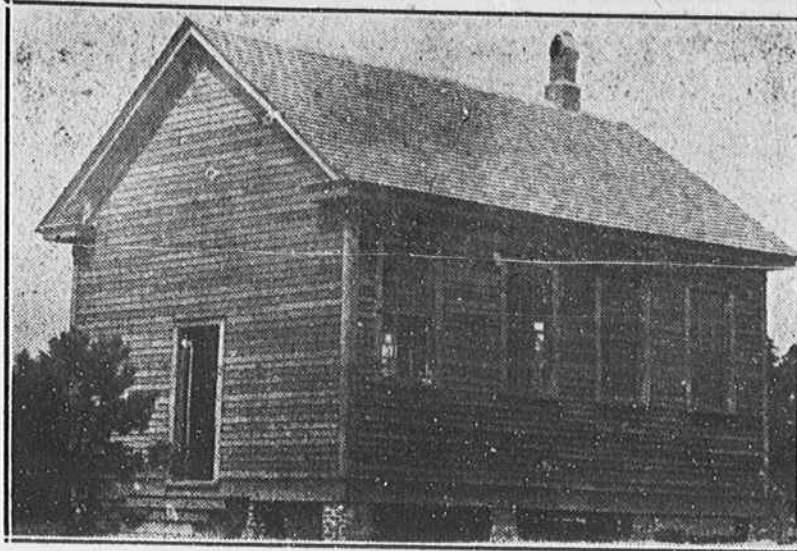

In 1817 the trustees, who were George Dillard, Joseph Garret, David Reader, and Edward Janes, bought 4 acres from Wm. Dillard for fifteen dollars and the same year, 3 acres from Elijah Cabaness for the same amount.

In 1835 they bought 4 acres more from John Hairston for twenty dollars. The other five acres were acquired later but the writer can't locate the papers. The land was deeded to the trustees of "Hunting Academy."

The school has had a varied career, sometimes it had as many as 60 pupils and at others only a handful. From 1908 to 1911 there was only one white child of school age in the district. There is one family who has attended that same school for five consecutive generations. It has only 11 pupils now and is taught by Mrs. Sparks.

Jessie M. Sparks,
Teacher.

"My little son had a very severe cold. I was recommended to try Chamberlain's Cough Remedy, and before a small bottle was finished he was finished he was as well as ever," writes Mrs. H. Silks, 29 Dowling St., Sydney, Australia. This remedy is for sale by all dealers.

O'DELL SCHOOL (New Building).

O'Dell School.

The school is situated in the extreme southern end of the county, twenty-five miles from the county seat.

There are no old records to show the exact date of its being built, but from what we are able to learn from the older residents of the district, it has been here about forty years. This has never been a very large school, for the past twenty years, not more than twenty-five pupils enrolled, and in the last ten years, not more than ten.

In 1910-11 there was only one pupil, in 1913 there are nine.

In all the years there have been some excellent teachers, many of them college graduates.

The school children are too small to take part in the Corn club or Tomato club, they being first, second and third grade children.

The School Journal is taken by every family represented except one. One child will get the perfect attendance button.

In the summer of 1912 the voters of the district got together and voted a

O'DELL SCHOOL (Old Building).

special three mill tax to be used for school purposes thereby lengthening the school term from five to seven months.

Also there is a nice new building, costing \$350.00, the school lot having been given by Mr. E. C. Briggs of Clinton. The trustees, the children and all who are interested in the school, wish to thank Mr. Briggs for his generosity and also Mr. Pitts and Miss Gray for their kindly interest in the school.

Pains in the Stomach

If you continually complain of pains in the stomach, your liver or your kidneys are out of order. Neglect may lead to dropsy, kidney trouble, diabetes or Bright's disease. Thousands recommend Electric Bitters as the very best stomach and kidney medicine made. H. T. Alston, of Raleigh, N. C., who suffered with pains in the stomach and back, writes: "My kidneys were deranged and my liver did not work right. I suffered much, but Electric Bitters was recommended and I improved from the first dose. I now feel like a new man." It will improve you, too. Only 50 cents and \$1.00. Recommended by Laurens Drug Co. and Palmetto Drug Co.

GENERAL FARM NOTES

Select sires and dams from large litters.

Always begin hitching up by fastening the lines.

With lambs get all the growth possible the first summer.

With horses size with good action are desirable qualities.

Constitutional vigor will perpetuate itself in vigorous offspring.

Hogs coarse in type mature slowly and fatten indifferently.

With judicious management hogs are pretty nearly sure money.

A mixture of millet and corn will make a fairly good quality of silage.

A fowl having a strong constitution has a full development of the tail-feathers.

Poultry and lice cannot be successfully raised on the same land at the same time.

Both concrete and wooden silos produce good ensilage provided they are properly made.

When alfalfa is ready to cut for hay it is in the right stage of maturity for ensiling purposes.

Planer shavings and sawdust are being quite generally used by dairy-men for bedding purposes.

Keeping dairy cows means producing more food on fewer acres and consequently getting greater profits.

Peanuts are good to plant in the orchard if not too far north. They must be kept absolutely free from weeds.

Better Far, an Old Gown with A Warner Corset

To lend it shapeliness and styles, so long as a shred holds together, than a smart new frock done the injustice of a limp and shapeless Corset.

Few well-dressed women now need the reminder that Warner Corsets are shapeliest and most fashionable, as well as the most economical in wear.

Sometimes it gives one a pleasant start, though, to be reminded how much Warner grace, comfort and wear can be secured for the same prices as the ordinary NAMELESS Corset.

Don't cheat your figure or your purse. Our Warner Corset Section is well equipped with a full line of the newest Warner's Corsets for spring, at \$1 to \$3. Every pair is guaranteed.

You can depend absolutely upon everything connected with this house—you are assured the most correct merchandise at moderate prices. Why shop elsewhere?
